

"Tania stepped in at the right time, like she almost knew I was struggling with an ingrown toenail...

I was limping and on antibiotics with all that pain of course... It was like something was stuck inside of me and had to be released...

I happened to speak with Tania and tell her this and she very generously offered to do an Integration session for me.

Through the session though I was on another level with past lives, I knew something was going on with my toe nail...

After a lovely 90 mins of love and support from Tania through the session, I knew I had begun to heal ...

The healing was from within and Tania enabled that for me with her belief and her commitment...

In the next 5 days, my toe was back to its original size and it had healed completely...

Medical Science will never know or accept this... but being healers and the proponents of Love and its magic, we trust the process, just like I trusted Tania to help me with this and she did!

Thank you dear sister for your love and your help ...

The number of people that I have narrated this to is something to reckon with; they have their jaws wide open...

You have my love and support in everything that you do...

God bless you and your heart so you can touch more lives with your amazing work!

Thank you from the bottom of my heart...

Cheers from your sister in India

Love and hugs"

"(...)Anyway, I just want to thank you so much again for your support and confidence in me in this process as well as your own personal experience, which I think gives your integration therapy method much deeper dimension, making it clearer, and much quicker than any other form of counselling I have ever experienced!

Integration therapy is the most efficient, quickest and the kindest method of counselling I have ever experienced.

In just 4 sessions I felt a massive difference and change in me, discovering and tapping into different layers of my consciousness and finding deeper emotional and spiritual connection with myself and the outside world and people around me.

The crucial thing is the support and empowerment which comes from bringing immediate closure to the issues and problems discovered during the therapy, which enables you to let go of still painful but the no longer useful past and move on, concentrating on what's good for you and giving you the strength 💪 and hope 🌈 for the new and bright future, where you feel completely in control of your choices.

This made me understand my nature, accept and understand the patterns of my thinking and behaviour which were causing pain.

Tania has an extraordinary gift of unlocking hidden truth, we carry deep within ourselves. She opened the door to set me on my personal journey of discovery, and showed me the pathway to set me free from my old beliefs and no longer useful patterns of behavior, which I will be forever grateful.

Thank you my Angel! 😊 xxx Ula"
